Wanted--A Market

Many towns in the Territories of much less importance than Wetaskiwin have instituted periodic markets for the sale of horses, cattle and produce of all kinds. This has proven much to their advantage as it brings buyer and seller together at stated periods and the result is mutually advantageous. Wetaskiwin should not be behind her younger sister towns in this respect. The stock and products of the Wetaskiwin district are not excelled anywhere in Canada and we are of the opinion that the time has arrived when some effort should be made to meet the convenience of parties in this district having anything for sale by the fixing of one or more market days in each month.

During the last few weeks a large quantity of hay has been sold on the street and at times as many as half a dozen loads have stood for hours on Railway street waiting for purchasers and almost daily different articles of produce are being peddled around more simply owing to the absence of some recognized place and time where buyers and sellers could meet and transact their business.

The appointment of market days would result in a saving of time and trouble to both buyer and seller and is much to insure an increased amount of business and would probably in many instances result in better prices being obtained than are at present realized.

It is no uncommon experience to hear that a man wishing to buy some article was in town making inquiry for what he needed and failed to find it while within the next day or two some other person was offering the same article for sale and could not find a purchaser. In both instances much time was doubtless lost and probably both buyer and seller eventually travelled many miles and spent much time in attaining their individual object.

There can be no question that the appointment of market days would be of great benefit to buyer and seller, and doubtless it would also conduce to the advantage of the merchants and townspeople as well. Market days would naturally result in attracting the general public to town on these recognized days and they would bring in any article they wished to dispose of and those desiring to purchase would come to town in the hope of finding something they required.

Again the establishment of a market would attract buyers and sellers from distant points and so would add to the amount of business done in our town and naturally increase the gross amount of trade which would be a benefit to the entire community. The establishment of market days suggests the securing of a market site, but there is little doubt that a suitable site could easily be found. Probably sufficient area is available adjacent to the business portion of the town for this purpose without going to the expense of purchasing a site. Considering the financial condition of the town at the present time it might not be advisable to put the town to any expense in the matter, but we would suggest that our councillors consider this matter and if possible make such arrangements as they consider advisable in the best interests of the town and district.

Communications

We do not intentionally endorse the sentiments advanced by this or any other correspondence.

To the Editor of The Times.

Sir:

Being personally interested in the subject discussed in your leading article last week I take the opportunity of endorsing your advocacy of the original scheme for the diversion of the Town creek.

There is no doubt whatever that the general health of the town is unfavorably affected by the filth which accumulates in the bed of the creek, and more particularly in summer, by the stench arising from decomposing matter, both animal and vegetable which may be seen there at any time.

In addition I may say, there are grave reasons for believing that many of our town wells are being rendered dangerous to health by the infiltration of foul water into them from the creek, and further—there are many cellars in town which are more or less flooded during the whole of the summer time, as a direct consequence of the existence of the creek. The sandy subsoil allows the water of the creek to percolate freely in all directions into cellars and wells to the detriment of the health and com-

fort of the whole town. This source of danger can not be too soon eliminated, as it is an ever present evil, a continuous inconvenience, a constant annoyance and the cause of a considerable annual expenditure. The immediate attention of our Town authorities should be drawn to this matter, and a determined effort should be made to put an end to the nuisance and at one sweep banish the creek from our midst.

J. H. WALKER

Sept. 19, '04

To the Editor of The Times.

DEAR SIR:—Kindly permit me the use of a short space in your valuable paper to reply to Mr. V. C. James' communication which appeared in last week's Post regarding the coal he purchased from me. I wish to state that I am the dealer who sold him the coal and not Mr. W. H. Eggleston as many people have thought. I think it is a mistake Mr. James ordered the coal on Friday evening and I had my driver load, weigh and deliver it. The next I know of the matter was on Tuesday noon when Mr. G. Bush's dry came to my weigh-scale at the Drydri Hotel corner to weigh a load of coal. He informed me it was the same coal my man had delivered to Mr. James so I at once compared the weights of the two loads and finding a discrepancy, went immediately to Mr. James and told him my driver had evidently made a mistake and that as soon as the dry came back I would refund the amount in error and would also pay the extra drayage fees. He almost refused to listen to me and declared he would publish the matter in the paper. I could only offer to rectify the mistake and offer an apology, which I did. I also paid him the difference when the dry weighed back. I think it would have been fairer of Mr. James to have told me first there was a shortage in weight and not apparently jump to the conclusion that I intentionally intended to defraud him.

In the meanwhile I can only leave these facts before the public and let them be the judges. I desire to heartily thank those who volunteered their confidence in me, regardless of Mr. James' letter and also to thank you for this valuable space.

Yours respectfully,

THOS. L. ADAMS.

Two Weeks On C. P. R.

Medicine Hat, Sept. 19.—While train No. 1 was standing at the station platform here this morning the east bound express, No. 96, pitched in, it, slightly damaging some of the coaches and injuring a few passengers, all of whom, however, were able to continue their journey.

The engineer of No. 96 was unable to see No. 1 on account of the dull morning and steam blowing from the engine.

None of the train men were injured.

An east bound express met with an accident near Dexter, 50 miles west of Fort William Sunday morning.

The cause was a broken rail. The train was in two sections and the first met with the accident.

Two fuel cars, mail, express, and baggage cars were derailed. A coach with Chinaman went off, but no one was injured. The occupants of it and the adjoining coach were badly shaken up. Mail Clerk Smith, Winnipeg, was hurt on the foot. All the other employees in the derailed cars were thrown down, but not seriously hurt. A temporary track was laid and the train reached Fort William at 8 o'clock at night.

Reel Deer, Sept. 17th.—The by-law for the construction of a municipal system of waterworks was carried unanimously to day. The work will commence at once.

The railway Commission deviled against Calgary in its dispute with the C. P. R. regarding the closing of a crossing on First street east.

Cleveland, O., Sept. 10.—Lou Dillon broke the world's half mile record, making the distance in 58½ seconds, no wind shields.

Blood Poison Often Results

From pairing cures with razors. Wise people use Putnam's Pain-Exor and Wart Extractor, the standard cure of America and Great Britain, for all sorts of corns, warts and bunions.

If you want Fresh Groceries come to
THE
Our ambition is to please.
Before laying in your winter supply get our prices.

Heather Bell Tea is still on the market at the same old price, 45c a lb. or a 5 lb. tin for \$2.00. Just as good as ever.

Ogilvie's Flour always in stock. The price has advanced but we have not advanced it. Try a sack and you will always use it.

Tomatoes, 2 tins for 25c.

A large assortment of Jam in wood pails, 7 lbs. only 60c.

In looking after your health and purse we strongly advise the use of Orange Maud, Vim, Trixelle, Flaked Rice, Malta Vita, Bialston's Cris and Force, are a few of the many lines we handle at 15c a package.

For a short time we are giving 10% off on all Groceries. Thousands and thousands found in this department. A good opportunity to get these lines at very low prices.

Dry Goods

We have about 20 yards of good Wrapper Flannelette that must be sold this week, at 10c, regular 60c for 85c.

34 inch Flannelette, in nice light stripes, to be sold at 10c.

Priestly's Black Serge, in 44 in. goods, all wool, regular 60c for 35c.

Priestly's Black Serge, all wool, 40 in. wide, reg. 60c for 37½c.

Priestly's Black All Wool Serge, 38 in. wide, good quality, regular 45c for 32½c.

These goods will be displayed this week at these prices.

A few odd lines of Corsets especially small sizes that must be cleaned up, regular \$1.25 line for 95c. 2 lines at \$1.75 for 1.20, in white or drab.

Pillow Slips, 3 for \$1. in a real good quality.

Good large Sheets hemstitched for \$1.75 the pair.

Ladies' Underwear

A nice cotton step Vest, long sleeves, for 25c. a snap.

A beautiful line of Vests at 35c.

Our lines at 50c, 60c, 85c, \$1 and \$1.25, are world beaters. Look them over even if you don't want to buy.

BUTTER AND EGGS TAKEN IN EXCHANGE.

The Value of Agricultural Fairs

It is a self-evident proposition that agricultural fairs which receive grants of public money should give the public something of value therefore. It is not the province of governments in these days to assist in providing amusement for the people. A good many agricultural societies are now making an earnest effort to improve their fairs by the introduction of educational features, and their example is being followed by the large exhibitions which do not ordinarily receive legislative grants. There are still some fairs, controlled largely by the business men of the towns which seem to be held for the purpose of attracting visitors who will prove good customers, but the number is fortunately becoming few. It is now generally recognized that shows exist primarily for the purpose of improving agricultural conditions. The up-to-date fair secures the services of expert judges, who explain the reasons for their decisions in the ring and give addresses on the best types of horses, cattle, sheep and swine. In this way the judgment may be made an educational feature instead of merely an allotment of premiums by men who are often incompetent or biased in their judgment. The awarding of prizes at a fair is a comparatively unimportant matter as compared with other considerations. What is really desirable is that fairs should be the means of disseminating information and of fixing correct ideals in the mind of those who are producing food stuffs and on whom the prosperity of Canada depends. Desirable and undesirable types of fowl may be shown, on lectures on the fattening of chickens for the British and domestic markets and exhibitions of killing, plucking and packing for export. A model poultry house, with incubators, brooders, fattening crates and other appliances, interested thousands of visitors at the Toronto fair this year. Practical demonstrations of the proper packing of fruit for export should be given in fruit districts by expert packers, and the most approved styles of fruit packages exhibited.

To improve farm crops—Another feature worthy of adoption by all agricultural societies, but which only a few have yet taken up is the growing of illustration plots on the fair grounds. At a small expense a very interesting and instructive exhibit of the best varieties of grasses, clovers, millets, sorghums, corn, fodder and pasture plants, turnips, mangels and sugar beets can be provided. By studying these plots farmers may learn just what crops and what varieties are best adapted to their farms, thus bringing home to particular conditions of soil and climate the general conclusions arrived at by the experimental farms. In all kinds of farm crops the yield per acre may be materially increased and the quality substantially improved by the use of seed which has been graded up by careful growing and systematic, intelligent selection, continued without interruption from year to year. The general conclusion arrived at by the experimental farms, and one of the best ways of doing so would be to have on view at the fairs representative exhibits of the great work being done by members of the Canadian Seed Growers' Association.

Interesting to the Women and Children—Demonstrations of agricultural processes are interesting to everyone, but the operations of a model kitchen and dining room, with exhibitions of cooking sample dishes and addresses on domestic science, will appeal especially to the farmers' wives and daughters. That the children may be led to take an intelligent interest in the fair, prizes might be offered for exhibits by school children of cut flowers grain, clovers and crassas, roots and vegetables, fruits, preserved and mounted wild flowers, weeds and weed seeds, beneficial and injurious insects and native woods. These exhibits could be supplemented by essays for which prizes might be offered whenever this plan has proved effective in inducing children to begin the fascinating study of nature. Every precaution should be taken to have a good clear fair, where all the boys and girls may go to have a pleasant and instructive day without coming in contact

with any injurious influences. Keeping Good Sites. Many agricultural societies particularly in Quebec and the Maritime Provinces do not hold fairs, but in lieu thereof buy and maintain pure bred sires for the use of their members. This is a practice which might well be imitated more largely in Ontario, where the number of fairs seems excessive. By adhering to one breed of cattle, horses, sheep or swine, as the case may be, stock belonging to the members of a society may be graded up wonderfully at a small cost, but the habit of changing continually from one breed to another must prove fatal to all plans for building up a good uniform herd or flock of grades which is just what the average farmer needs.

Yours very truly,
W. A. CLEMONS,
Publication Clerk.

West Beaver Lake

Miss Pearl Royle is on the sick list. She was taken sick on Thursday last. Although her life was in danger for some time, on Sunday last she seemed much better. Her brother-in-law started on Sunday for her mother at Dried Meat Lake.

Mrs. Robt. Whillans was on the sick list last week but was able to go out to service on Sunday. The services were conducted by the Rev. Mr. Robinson and Rev. Mr. Whillans. After services the Lord's Supper was conducted by the Rev. Mr. Whillans.

Rainy weather still continues. It has rained most every day this week. Just enough to keep the farmers from stacking.

A. J. Story is working for Mr. Hunt this harvest.

Mr. and Mrs. Mitchell just returned from Edmonton on Sunday last with a load of supplies.

Mr. Jack Wills started for Edmonton on Saturday. It is hoped he will bring the windows of the new school house as they have been waiting for them for some time or the school house would have been finished some time ago.

The Tofield Union Ladies' Aid Society, met with Miss Story last Thursday, but owing to the busy time of the season it was not very largely attended. It will meet with Mrs. Harry Neal the 2nd Thursday of October.

At the last hearing Messrs. Erickson & Flinton's horses, which were badly cut in a wire fence were progressing nicely.

The Tofield School Board called a special meeting for the purpose of raising money to pay for the new building when it was completed.

Vegreville

Parties in other districts have little idea of the amount of travel that is done in our district. Last week the general proprietor of the Grandview Hotel entertained no less than thirty-eight transient guests, most of whom were land seekers. Needless to say this taxed the accommodation of the hotel somewhat but he made the best of the circumstances. He is building a large addition to his already commodious hotel.

The people of this vicinity were shocked to hear of the accidental death which befel one of our best known and most highly respected citizens on Saturday the 10th inst. the person of George L. Cole. He was hauling a load of wood and slipped off in front of the wagon. The team took fright and dashing over the rough ground caused the front of the wagon to be separated from the hind part. Mr. Cole was pinned down in front and the bolster turned over suddenly struck him on the head rendering him unconscious. His son-in-law, H. Trenhol, managed to stop the horses, and was horrified to find the old man in a mangled condition. Besides having ugly wounds about the head, both the unfortunate man's legs and arms were broken. and life lasted only a short time. The funeral was the largest ever seen in Vegreville, about forty rigs being in the cortege.

Blood Poison Often Results
From paring cuts with razors. Use people, use Putnam's Painless Corn and Wart Extractor. The standard cure of America and Great Britain for all sorts of corns, warts and bunions. Putnam's.

Edberg

(For last week)

A. Erickson made a suspicious trip to town last week.

A. Halsed, who spent a short vacation at Dried Meat Lake, now apparently feels much refreshed.

Mrs. Anderson, of Wetaskiwin, is here visiting friends and relations.

G. Knapp, one of our popular bachelors, is naturally of an inventive turn of mind, one of his latest discoveries being a new use for a hammer. As yet it is only known to a few of his friends, but he will be prepared to give it to the public as soon as he has proved and found it successful in all cases.

In our last item we wished to know the name of a certain bird which a description was given, though it happens he was minus the wings. We are much obliged to the Smoky Hollow correspondent for supplying us with the necessary information though unintentionally or it may be intentionally, thinking it a good opportunity of letting the public know of his musical talent. How well the cap fits. Wear it, for it is certainly yours. Since you claimed it we will not give to another. Poor fellow he now has to go through or at least pass many potato patches, even into Duhamel which he appears to think is an important place in his memory, but "it is reported" inaccurately, for that place can not claim my acquaintance now, whatever it could have done some years ago. I saw by the paper where there were to be spots on a certain date at Duhamel, but never saw an account to say that they came off, much less where anyone got into trouble of any kind, and so you will see that you are profoundly mistaken in your idea of the "news scavenger" as you term him and since we know the source from which the epithet came we silently pass it by for nothing much better could be expected.

SVEA

Mr. Humphrey was it town last week and bought a pump for his well.

Messrs John Bolek and B. Smith went to Ponoka last Saturday on business.

The last few days have been hard on the grain but some of it has already been stacked.

A. Humphrey and Vic Johnson went to town Wednesday after a team of horses which Vic bought a few days ago.

Joseph Gustafson, of Stockholm, Sweden, is working for A. Humphrey. Mr. Gustafson came over from Sweden about two months ago.

Herman Falk and S. Shode were in town last week after a load of lumber.

The geese have come. Now boys this is the best sport of the season. No doubt lots of the geese will be shot around Svea this fall.

HUMAN SKILL VERSUS MACHINES.

Man's ingenuity invents machines to do work, man's skill cannot do. No fingers, however deft, could ever sew a stitch locked inside a piece of leather.

No eye, however true, could gauge with absolute accuracy the length of the stitches on a hundred thousand pairs of shoes—or on one pair.

No human muscle could work eight, ten, fifteen or twenty-four hours a day, and draw the stitches evenly, tightly, all day long.

And no human being would have the patience to wax his thread before every stitch—or remember to do it if he had the patience.

And fifty men could not make as many imperfect shoes in the time one Goodyear Welt Machine takes to makes fifty perfect pairs.

"What does Goodyear Welt mean?"
"It is the very best, most perfect method ever invented for joining the Uppers of shoes to the Soles."

GOODYEAR WELT LOCKED STITCH.

"Why is it the best?"
"Because it's the only method that makes a shoe without a stitch or a tack under the foot stronger than hand sewing."

"Why is it stronger than hand sewing?"
"Because it locks its stitches inside the leather of the outer sole, draws them tighter and more uniformly than hand sewing."

"What advantage does the lock stitch give?"
"The holding power of the stitch remains till the sole is worn through whereas in hand sewn shoes, the top of the stitch wears off in a few days and only straight strands of thread are left to hold the sole on."

"Does it make the shoe cheaper as well as better?"
"It does because it makes fifty perfect pairs, where one imperfect pair could not be made by hand."

"Have any improvements been made in the Goodyear Machines in recent years?"
"Yes, a vast improvement has been made in the New, Improved Goodyear Welt Machine, now in use in the Slater Shoe Factory."

"What is the nature of the improvement?"
"A better motion of the parts, producing better results in the shoe."

"Can a novice tell a Goodyear Welt by seeing it?"
"Not always because there are imitations."

"How can he be sure of getting a genuine Goodyear Welt Shoe?"
"By buying only "The Slater Shoe" because "Slater Shoes" are made only by the new, improved Goodyear Welt process."

The Local Improvement and School Assessment Ordinance

Notice is hereby given that, under the provisions of The Local Improvement Ordinance, and of The School Assessment Ordinance, the following property is assessed for the year 1904, at Town of Edmonston, in the County of Regina, in the Province of Saskatchewan, for the purpose of the payment of the same under the said Ordinance in respect of the following Local Improvement Districts, viz:

Local Improvement District No. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.
--

School District No. 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

Dated at Regina this 10th day of October, 1904.

JOHN A. JONES, Clerk.

Deputy Commissioner of Public Works.

THURSDAY, SEPTEMBER 22 1904.

War News

St. Petersburg, Sept.—Heavy fight-
ing has occurred around Mukden.

Berlin, Sept. 19.—The Japanese op-
erations are effectively screened be-
hind outposts.

The ammunition expenditure at
Liao Yang is astounding. The Rus-
sians alone fired one hundred thousand
rounds. The air there is poisoned by
4,000 unburied dead.

Mukden, Sept. 19.—There is at
present a mysterious movement among
the young, able-bodied Chinamen to
the south of this place. Those best suit-
ed for military service are going east-
ward, evidently in accordance with
some definite plan.

St. Petersburg, Sept. 19.—The war
office authorities here expect another
great battle in the immediate future.
It is believed that it will take place in
the neighborhood of the Pass.

Chefoo, Sept. 19.—A Chinaman
who has been in Port Arthur since the
war commenced and who has come out
with difficulty states that the Rus-
sian have placed mines under all the
public buildings, wharves, arsenals
and everything that could possibly be
of use to the Japanese, with the in-
tention of causing their destruction
after the Japanese enter the city.

Amunition is growing scarcer but
there is plenty of bread. A shell hit
a destroyer that was lying in the dock
undergoing repairs, knocking it into
kindling wood and killing seven sail-
ors. The shell came from the Japa-
nese fleet which comes much closer than
formerly, throwing shells daily. One
shell demolished several engines in the
dock yards and killed an officer
and two men. The five eleven-inch
guns on Golden Hill, which were for-
merly pointed seaward, have been re-
arranged, three of them now pointing
landwards. The Chinese alleged that
all the guns except the ten and twelve
inch have been removed to land bat-
teries from on board the battleships,
where they were of very little use.

Paris, Sept. 17.—The exact figures
of the Russian losses in killed and
wounded and missing in the operation
before Liao Yang from Aug. 13th to
Aug. 16th have been received by the
General Staff. According to the
Times' St. Petersburg correspondent
they are, 2 generals, 256 officers and
21,800 soldiers. In addition 133 guns
were lost. Material losses include fort-
ifications costing \$30,000,000.

Madrid, Sept. 20.—A Russian
cruiser has been seen off Cape St.
Maria and is reported to have sunk
a British steamer.

Tokio, Sept. 20.—A strong Rus-
sian force made a desperate sortie
from Port Arthur on the afternoon of
Sept. 18th and attacked Stosham
fort, recently captured by the Japa-
nese. The fighting lasted for some
hours and the Russians were eventu-
ally repulsed with heavy loss.

St. Petersburg, Sept. 20.—The
Russian answer to the American note
in regard to command of war does
not recognize anything wrong in sink-
ing the Knight-Commander. The
British still hope in further negotia-
tions.

Mukden, Sept. 20.—The Japa-
nese are advancing slowly with a broad
front, the left resting on Liao Yang
and the right on the mountains, prob-
ably at the Fusian coal mines, 27
miles eastward. The Russian troops
have recovered their spirits.

Chedoo, Sept. 20.—A report comes
from officers at Port Arthur that the
naval guns on Liao Ti hill fort are
worn out from increased firing and
consequently the land for about two
and a half miles to the westward has
been mined. The correspondent ad-
mits that the wearing out of the guns is
causing great anxiety.

Railroad Fight At Edmonton
Edmonton, Sept. 17.—Today it is
currently reported, on what is deemed
excellent authority, that the C.P.R.
has already acquired 40 acres in the
western part of the town for a station
site and yards and that their Edmon-
ton station will be located on the
north side of Jasper, somewhere west
of 10th street. This would indicate
that the C.P.R. had concluded to cross
the river, which enterprise implies the
construction of a high level bridge in
the neighborhood, probably, of the
fort.

It is not known where this plot lies,
but it is supposed that it is the un-
surveyed portion of the Hudson Bay
reserve which lies between Jasper and
the C.N. and between 1st and 15th
streets.

The importance of this purchase lies
not only in the early construction of
the C.P.R. into Edmonton, but also in
the vantage ground which it gives the
town in negotiating with the Grand
Trunk. The C.P.R. has evidently
stolen a march on Mr. Hays and by
securing the block of land referred to
has rendered the location demanded
by the G.T.P. useless as a railway
property. The Grand Trunk may
possibly find itself more willing now
to take a site where it may.

Mr. Blair at Edmonton
Mr. Blair, chairman of the Rail-
way Commission, in concluding
the session, said at Edmonton:

We have travelled over a great
part of the Dominion and in no
place is the outlook more promising
than at Edmonton. Edmonton, Edmon-
ton is bound to be a great railway
center. There is no doubt of it.
The C.P.R. is near here and I
hope to see it enter Edmonton in
the near future. The Canadian
Northern is fast approaching, and
the Grand Trunk Pacific would
build both to and beyond here.
These are not the only railways.
There will be others running
north east and west and all will be
centered in Edmonton. I believe
the town is on the threshold of a
great development. The railways
should co-operate as regards ter-
minals in the town. Concentra-
tion is required.

Lumber Trust Broken
Vancouver, Sept. 15.—At last
there is to be an open lumber mar-
ket in the Northwest Territories
and Manitoba.

The mountain millmen, all of
them honorary members of the
Northwest Retail Lumber Dealers'
Association, have resigned from
that body and the word has gone
forth that hereafter the mountain
mills will sell to any person who
has the cash, whether he be set-
tler or retail dealer.

This action of the mountain
millmen means the stabilization of
the lumber combine which has for
years been a cause of complaint
to settlers and other consumers
who have been forced to purchase
all their lumber through dealers in
the towns of Manitoba and the
North-West.

In the past the mountain and
coast mills have, by agreement,
sold lumber to none but members
of the Retailers' Association.

No matter how good the finan-
cial standing of a settler he could
not purchase a car of lumber direct
from the mills.

Now that the mountain millmen
have resigned individually their
honorary membership in the Ret-
ailers' Association, and have an-
nounced that hereafter any per-
son's money will purchase a car-
load of lumber or shingles. The
mountain mills Association pro-
poses to open supply depots at all
important points in the prairie
country east of the Rockies, and it
is generally reported that the cause
for the split between the millmen
and the retailers' association is
that the former have come to the
conclusion that the latter were
holding up the price to the con-
sumer and holding it down to the
Mountain Mills Association. After
thorough investigation and full
consideration, the mountain mil-
lmen decided to sever their connec-
tion with the prairie organization.

Cataract is Certainly Curable
In fact it is one of the most curable
diseases if treated early. Cataract
is caused by a deposit of matter on
the lens of the eye. No matter how
long you have suffered with Cataract
you can be perfectly cured by inhaling
the antiseptic vapor of Catarrhine,
which strikes at the foundation of the
trouble and established such a healthy
condition in the system that Catarrh-
al germs can't exist. "I suffer from
catarrh of the nose and throat for
years," writes E. H. Downie of Platt-
ville. "My nostrils were always stuffed
and I had a most disagreeable hack-
ing cough. Catarrhine cured me com-
pletely." Catarrhine never fails.
Two months treatment \$100; trial
size 25c.

If you want to trade at a place where quality is the main feature ring up 62. OTTESON & SEARUND.

THURSDAY, SEPTEMBER 22 1904.

Big Fire at Red Deer

Red Deer, Sept. 18.—There was a disastrous fire in town early this morning, the first which has visited this place for some time and perhaps the most serious in all its history. The origin of the fire is not known. The following places were totally destroyed. The Merchants Bank, the store of McDermott & Manning, McClellin's store and a storehouse at the rear of the Arlington Hotel. By great efforts being exerted, the conflagration was got under control so that there was no fear of it spreading. By 10:30 the fire was extinguished, only the smouldering ashes remaining which continued to smoke for a considerable time.

The announcement of the discovery of a very large deposit of anthracite coal near Okotoks, Alberta, will no doubt prove of the very greatest importance to the west. It is claimed that this coal is even superior to the Pennsylvania article. It is one step more and a big step at that, in the development of the west's boundless resources, and, if it proves as satisfactory as predicted, may have a great effect on cheapening the cost of living and so assisting other industrial undertakings.—Winnipeg Commercial.

Horses and Cattle for Sale

Six gentle well broken horses and mare, well suited for sale. Also a large bunch of cows to calve in next future, to be sold either singly or together. Also a pair of stallions for sale or exchange. Apply to J. W. MOULDER, Wetaskiwin.

Or at ranch 25-45-15.

I met with a friend out at Neepawa recently, said a drummer, and he was chuckling over a copy of a letter he had in his possession. He said it was originally received by our mutual friend, Ernie Low, from a customer of Somerset, but I have my doubts. At any rate here is the letter:

"Dear Sir: I received de stove which i by from you alrite but for why don't you send me no feet wat is de use of de stove when he don't have no feet. I am loose to me my customer sure thing by no having de feet and as dats no very pleasure for me.

Wat is de matter wit you is not my trade money's so good like an other mans, you lose to me my trade and I am vree anger for dat and now I tells to dat you dat i send a dam fool and no good. I send you beck at wance you stove tomorrow for sure bekause you are such a dam foolishness people.

Yours Respectfulles
P. S.—Since I rite dis letter i find the feet in de oven excuse to me."

Chas. Whittman, of Namayave and 'Sixth street, has a ripe pumpkin weighing 49 pounds, 15 ounces on exhibition in J. B. Mercer's window. The pumpkin was grown in Mr. Whittman's garden from seed grown in the Imperial Gardens, Berlin, Germany.—Bulletin.

Red Deer Advocate.—While digging a drain out near the industrial school last Friday an Indian boy was instantly killed by the bank falling in on him. The young fellow had the shovel in such a position that when the bank fell in the sharp edge of the shovel rested on his breast, penetrating it owing to the heavy pressure of sand. Death was almost instantaneous.

Everyone With Sore Throat Should know how quickly Nervine cures. "I can recommend Nervine very highly for sore throat," writes Mr. R. McKenzie of St. George. "I once had a very sore throat and my chest was full of cold and soreness. Every cough hurt me. I cured myself quickly by rubbing my chest and throat vigorously with Nervine and using it also as a gargle. I believe Nervine to be the best general remedy for emergent sickness that one can get. We have used it for twenty years in our house." Price 2c.

Important Notice

According to the new postal law a newspaper publisher can be held for fraud anyone who takes a paper from the post office and refuses payment, and the man who allows his subscription to be unpaid, and then orders a postmaster to mark a paper refused, and sends no notice to the publisher, lays himself liable to arrest and fine.

Communication

We do not personally endorse the sentiment expressed by this or any other Correspondent, to the Editor of The Times.

Dear Sir:—
In last week's issue appeared an item from the distinguished writer "One Who Was There" regarding his assertions of the Lewisville Picnic.

In his former article he says, "It was to have been a basket picnic, so it was, except for the baskets which were lacking." I do not say that the writer of that article was aware of the large number of well-filled baskets, but I do say there were plenty of them at the picnic. The Lewisville people are intelligent and comprehensive and it was that keen foresight, perhaps, that prompted them to accrete their baskets when "One Who Was There" was around.

If a person goes hungry in such a large crowd as that present at the picnic and having friends from the same country, who do not look after his welfare, he should not blame strangers for not doing so unless it is the persons who know him least that extend the most favors to him.

He says further, "It is a remarkable coincidence that the grounds should have been chosen so close to the store, and the bakery, and the store-keeper wasn't at all ungrateful."

The "store-keeper" got up the picnic, gave all the prizes that were given, except for two or three foot races, and to a fair minded person it was his privilege to hold the sports where he chose if he bore nearly all expenses of same. Let me say further that the manager of the Battle River Picnic, and many other members of the same requested that the races be held where they were.

He says further, "It certainly seems unjust to force a crowd of picnickers out seeking a day of fun into a little three by six store or else exercise their other option of getting out into the hot sun."

By measurement the "little three by six store," is 14 x 28 ft. with a rear-room 12 x 25 ft. and it was in this rear-room principally that "trade flourished" to use his expression.

The manager of the Little Beaver Baseball Team assured the writer that his team was well satisfied with their treatment and that he never heard of a person from his locality who was dissatisfied.

It is clearly a case of green eyed monster coupled with maliciousness affecting "One Who Was There." In conclusion let me add when Lewisville holds her next picnic or sports and requests everybody to bring baskets, it would be well for "One Who Was There" to either bring his basket or appeal to the "store-keeper," who will see that he is furnished with a well-filled basket in order that the picnic may be well advertised again.

J. G. Ginnon

Think The Robbers Have Escaped

Vancouver, Sept. 19.—The police announce that they believe the robbers who held up the C.P.R. transcontinental train last Saturday have made good their escape. Provincial Officer Munro returned this morning. He has been working with Provincial Officer Campbell since the robbery in an attempt to trace the highwaymen. He states that he believes the chances of capturing them now are slim, that if they are arrested it will be merely by accident. The only hope now is if the size of the reward will tempt someone in the gang to disclose the whereabouts of his fellow criminals. It is announced to-day by the Province that a proclamation will be issued by the Dominion Government offering a reward of \$5,000 for the capture of the robbers. This will bring the total reward up to \$12,500.

FREE FREE A School of Success,

—TAUGHT BY—

The Most Successful Business Men in America

Sir Wan Van Home, ex-president of the C.P.R., Sir Thomas Shannahan, president of the C.P.R., C. M. Hays, general manager of C.P.R., Sir George Drummond, ex-president of the Bank of Montreal, Dr. William Patterson, principal of McGill University, Chas. R. Houser, president of the C.P.R., Telegraph Company, F. W. McLean, Gen. B. Cortelyou, formerly secretary to President McKinley and President Roosevelt, and a host of others of the most successful men of Canada and the United States, have agreed to tell the boys and girls, the young men and the young women of Canada

How To Be Successful.

The Family Herald and Weekly Star, of Montreal, at great expense, has arranged for a series of articles on Success by Allen West, based on the experience of fifty or more of the most successful business men of Canada, some of whose names are mentioned above.

These articles will shortly appear in the Family Herald and Weekly Star and to boys and girls, no young man or young woman, no father or mother in Canada should fail to read them.

The Wetaskiwin Times has completed with the Family Herald and Weekly Star a clubbing arrangement by which every reader of this paper and every resident of this district can enjoy the advantages of these "Success" articles. Here are the terms:

Present subscribers to this paper who are not readers of the Family Herald and Weekly Star may have that paper until December 31st, 1904, for only 25c.

To new subscribers we offer The Wetaskiwin Times and the Family Herald and Weekly Star until December 31st, 1904, for only 25c.

These prices mean giving both papers away, but the publishers of the Family Herald and Weekly Star do so on this occasion to give young Canadians the benefit of this school of success and to let the public know the many good features of that greatest of all family papers.

This offer is good only until October 15th 1904. The Family Herald positively refuses to accept any subscriptions after that date.

For Sale

The privilege of cutting hay on half section near Millot, the owner is willing to dispose. Apply THE TIMES OFFICE.

Cook's Cotton Root Compound.
Ladies' Favorite.
Is the only safe, reliable, and permanent remedy on which women can depend in the hour of need. It is sold in two sizes, No. 1 and No. 2. No. 2—For ordinary cases. Is by far the best dollar medicine known.

No. 2—For special cases—10 degrees stronger than No. 1.

Ladies—ask your druggist for Cook's Cotton Root Compound. Take no other as all pills, mixtures and injections are feebly done at right prices should consult.

Mrs. McLELLAN, Millot.

Man's Most Critical Age

Very often the vital resources are small at forty two, but if not then between fifty-seven and sixty-two years of age there is a strange slowing down and loss of vitality. It is important that a transient period of youth should be checked; it is a decay should be imparted to the first half of the weakened nerves must be fortified. The wise man will use Ferrugine whose potency is particularly applicable to those critical periods. Ferrugine quickens the whole being, imparts vigor and power, pushes back the onset of senility in a very manifest way. It becomes the Ferrugine gives strength, vitality and vigor that it is useful to old men. Try it. Price 60c.
